LAURIE REYON

I am proud to be a contributing author! This is my story of how I became an Animal Communicator, and then an Inter Species Communicator. In this book I am able to tell the amazing stories of how "Puddah" became my teacher and partner and how I became a Soul Healer.

In this extraordinarily touching and heart-felt book, twenty cetacean ambassadors, visionaries, communicators, and facilitators of transformation share their personal stories of dolphin and whale encounters that changed their lives forever. The unique connection they each share with cetaceans has become their personal doorway to transformation, higher wisdom, and the ability to facilitate physical and emotional healing within themselves and others.

Let yourself be transported into the very depths of your soul as you journey along with the storytellers into the mystical, magical realm of higher consciousness that is the home (and playground) of the dolphins and whales.

These stories will inspire and expand your cetacean connection. A beautiful collection of stories, this what my friend and co-author Joan Ocean says about it:

"This is our new book! A book that will cause you to laugh and to cry tears of joy, recognition and appreciation. Everyone who loves dolphins and whales or wants to learn more about their incredible examples of good living, kind giving and advanced captivating behaviors, will want to consume every word written in this unique and all-encompassing book written by 19 experts in the field of cetacean communication, meditation, healing and international ocean-swimming.

Don't pass up the chance to enlighten your heart and comfort your soul with this inspiring book. The very process of its manifestation is an example of dolphin pod mind and cooperation. Together the authors met each other via emails and in Hawaii at the Cetacean Summit to bring this book to you. Working as a team, as a family, we submitted our stories, led by our tireless and experienced leader, Takara Shelor. This is the product of our union..... Of our podliness and love for each other and our dolphin and whale brothers and sisters. I hope you enjoy it as much as Jean-Luc and I have enjoyed contributing to it."

We're aiming for 'bestseller' status and I invite you to buy a copy now!

There are gift prizes to win, special gifts for the first 25 who purchase, plus free gifts for all who purchase during the launch period.
