Guided Whale Healing Meditation before the trip

Gray Whales & Dolphins too!

Come out with us on this March trip and expect to see the migrating Gray Whales on their journey back to Alaska. They have the longest migration of any of the Whales and are often considered the friendliest Whales.

Also expect to see the mega-pods of Dolphins that live year round off the coast of Southern California. Would you like to see wild and free Dolphins up close and personal with Animal Communicator Laurie Reyon?

Animal Communicator Laurie Reyon will lead a guided Whale Meditation on the grass before the boat trip. She will also teach a communication technique that is fun to use to talk to the Dolphins when we are on the boat. (bring a mat or towel to lie on)

Laurie Reyon will give everyone several messages that she receives from the group consciousness of the Dolphins and Whales. It is always a pleasure to listen to the wisdom of the Cetaceans, who are the Dolphins and Whales. The Cetaceans have lived on Earth for millions of years and have wonderful advice for us. They seek to help us raise our vibrations, find true self-empowerment and to encourage us to open to core level healing. They truly are our elders and have
amazing healing abilities. Many people are simply healed being in their energy fields.

Following the boat trip we will relax on the grass and receive a deep core level healing from the Whales guided by Laurie Reyon.

Come join the group as we spend a beautiful day on the water and connect to the Heart and Soul of the great Dolphins and Whales!

Dolphin Kisses and Whale Hugs,
Laurie Reyon
