

Whale Message for Humanity

through Laurie Reyon

We are the ancient
of the
ancients. We are
the Soul of the
Souls. We are your
past and we are
your
Memories. We are
your present and

we are here with you in the Now Time. We are your link joined with you to create the future for the Healing and Ascension of Mother Gaia. We are a Group Consciousness, stewarding this planet as an example of the Good of the Many.

The whales are the molecular librarians of Earth's evolution. What we call the Akashic records lives in the oceans of planet Earth. The information is stored in the water molecules. Since water is never destroyed, only recycled Earth's entire history remains safe in our ocean archives. The whales can access the information, circulate it and contribute to it, communicating by connecting to the intelligence in the water molecules. They tell me that the information in the water will teach us that in the future the body fluid of the human will eventually be used to provide flawless individualized treatment for people's health maladies.

The whales would like to assist us in remembering who we truly are. Knowing and honoring who we are is an important aspect of our personal growth toward love of self and our earth. They tell us that it is important for the human to reach a point in our evolution where we truly become the seeker of ourselves. It is important to reach for the knowledge that is held in the Akasha that tells us who we truly are, and where we are from and what we are made of and why we are here today.

In our quest for this knowledge of self awareness we are identifying ourselves as beings who value Love above all else and we are confirming our belief in Love by changing our life styles accordingly. We are coming to know our selves as vibrations of Love and in doing so are coming to remember our world and our beautiful Mother Gaia in a new light.

In our remembrance we are drawn to gather with like minded people and start to take back the conscious control of our environment. We are remembering that what we think and feel affects our environment and the others living around us. Once we take control of our emotions and thoughts we see that we do truly create our own realities and that we do have control over our own environments and that we are not the victims. The whales call this intentional evolution.

And finally the last piece of remembrance of self is to recognize and develop our connection to the cosmos and to life beyond the third dimension. We are not alone in the Universe and never have been. There are billions of other life forms that are not visible from our 3D perspective. We can connect with these other planetarians, who are our brothers and sisters of Light. We can benefit from their wisdom and knowledge and join with them as we move through our fears back to the truth of who we are and why we are here. The Dolphins & Whales are masters of cosmic travel and masters of multidimensionality. They are here to teach us, assist us in healing our minds and bodies are they are here now inviting us to open our belief systems to multiple realities of Love.

Whale Consciousness Message

The Universe is one living breathing conscious Being demonstrating inter-connectiveness and oneness. The incarnated whales are an example of the all loving, all knowing consciousness that came to planet earth to be a steward for Gaia and for humanity. As a species the whales and dolphins are the most spiritually and intellectually evolved souls in our world and they anchor light beamed to Earth from distant sources. Using their Merkaba they also align with the frequency and resonance of Gaia or Mother Earth. The whales have held the highest incarnated vibration on the planet for eons and also hold the resonance or frequency that is the heartbeat for Gaia. We would not have survived these many years if the whales had not chosen to use their vibration to balance and steady our beautiful planet.

The end of polarity or duality is nearing. The responsibilities the whales have held for humanity is now being shared with many humans as we awaken to our true selves and choose to take our

power as children of Creator/Source. We are reclaiming the true dreaming state of the living heart. This is true Creatorship. What this means is that through exercising intentional evolution we are entering into a time when thoughts will manifest very quickly into our dimensional realities. Because many of us have chosen to awaken to the truth of our Souls journey and become conscious creators, we are now able to connect with the super sentient ancient cetaceans we call the whales.

The whales are the ancients, the elders, and are the greatest healers we will know throughout our many journeys and lifetimes upon this planet we call Earth. The whales ask you to call upon them often to realign your auric fields and your organ systems. They remind you of the phrase "ask and you will receive". It is their honor to assist us and they come in joy and in a state of bliss that can best be described as "living in Oneness with the all that is".

The whales will now speak of how living within the heart assists us in gaining consciousness while living within our physical human bodies. The whales are offering us information and exercises to achieve "Christ Consciousness". They are referring to the state of awareness that Jesus had while he was incarnated upon the Earth plane.

1. Activating the Pineal gland which is the third eye: There are two sets of four rays of light which can emanate from the pineal when intention or desire is intended in a meditative state. Ask

to activate the color receptors as well in meditation. Eight beams of light will emanate outward. This will form a crown or halo of energy and light around your head.

2. These eight beams of light will connect with the Thalamus which is located behind the Pineal. As we evolve out of duality we will see humanity moving out of the paradigm of the immune system to that of the Thalamus. The Thalamus connects to the roof of your mouth and the tongue and the tongue becomes the key to higher consciousness.

3. Also in front of the Pineal the Pituitary gland is located which activates a very important chakra in front of your head.

As we look at creation there is the sphere or ovum and then the sperm enters. Mitosis occurs and then there are two and then four and then eight cells. When eight appear you have formed a star tetrahedron which is the key to the Merkabah. This then mutates to form an apple shape which is hollow. This becomes the heart. At that stage of development in the womb our entire body is our heart. Then the body begins to emerge from the actual heart and we observe that the tongue is the first organ to appear. So in observing the formation of the fetus we can conclude that the tongue is the organ that is most connected to the heart. So when one is in the sacred heart space and they use the tongue to massage the roof of the mouth with intent to connect with the Pineal and the Thalamus, alpha waves fire in the four lobes of the brain and green light appears in your auric fields. When this is practiced and performed in a meditative

state, instant manifestation or alchemy can occur. Whatever you dream from your heart space can then become your reality. It can change everything past, present or future in an instant. The ability to create something from nothing is the birthright of every single being on the planet. The whales are leading us back to the ability to remember and create in multidimensional planes.

EXERCISES:

Rub tongue side to side on the roof of the mouth. RLRLRLR
pause, LRLRLRL pause

Circle 3x clockwise and open palms and say OHM
Reverse 3 X counterclockwise and open palms and say OHM
Breathe in and you trace the infinity loop 3 x with you
forefinger.

Breathe out as you massage the 3rd eye. Reverse exercise.
